

Horseplay

When you're feeling down..... (remember)
You will never see a horse frown (not ever)
When you worry about life (remember)
Kick your heels up and gallop away from the strife

(Chorus)

All you need.....all you really need.....is some horseplay.....some horseplay...

Riffs X 2

When you greet each day...remember
To make plenty time to play.....and be tender
Make a foal of yourself....remember
Horses know how to ride all their worries away

(Chorus)

All you need.....all you really need.....is some horseplay.....some horseplay...

Bridge

Canter to the left
Canter to the right
Canter to the front
and back where you began
Try to free your mind....remember
To a simpler time you remember
Laugh as loud as you want... and remember
Feel your feet on the grass and just gallop away

(Chorus)

All you need.....all you really need.....is some horseplay.....some horseplay...

Bridge

Canter to the left
Canter to the right
Canter to the front
and back where you began

(Chorus)

All you need.....all you really need.....is some horseplay.....some horseplay...
All you need.....all you really need.....is some horseplay.....some horseplay...
All you need.....all you really need.....is some horseplay.....some horseplay...
